The Senate refused, after a few paragraphs, to lear the President's message read. Mr. Sumners' Georgia bill is as follows: After premising that the Legislature had failed to comdy with the requirements of the reconstruction acts by omitting the exact required oa'h, and did things utterly unjustifiable and requiring the in tervention of Congress, the bill declares the existrespects subject to the authority of Congress, to bolish, modify or con rol the same until the the reconstruction acts and adopts the Fourteenth Amendment, and subject to the fundamental concition that no change be made infringing on the right of suffrage of any class of citizens. The bill directs that the Governor elect shall

call an assembly at Atlanta on or before April mext, excluding, unless relieved by Congress, ali who cannot take the prescribed oath. The Governor is also empowered to suspend or remove 21 point others instead ; and finally the President was ordered to place at the disposal of the Governor such portion of the army and navy as is necessary to preserve life, property, peace and ce expression of political opinion.

GUEGANUS & BURBOUGHS, Conwayboro', S. C. 60-6t SCHIEDAM SCHNAPPS.

To the People of the Southern States.

New York, Nov. 3, 1868,

When the pure medicinal restorative, now so widely known as Wolfe's Schiedam Schnapps, was introduced into the world under the endorsement of four thousand leading members of the medical prefession some 20 years ago, its proprietor was well aware that it could not wholly escape the penalty attached to all new and useful preparations. He, therefore, endeavored to invest it with strongest possible safeguard against counterfeitthe most COMPLETE STOCK of ers, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemiets for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were fowarded to ten thousand physicians, including all the leading practitioners in the United States, for purposes of ex- in the city-selected especially to suit the times periment. A circular, requesting a trial of the preparation and a report of the result, accompanied each specimen. Four thousand of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a preparation, they said. had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce, all of which were more or less adulterwhich has made this Store "A HOUSEHOLD ated, and therefore unfit for medical purposes .-The peculiar excellence and strength of the oil of | WORD," will be continued. juniper, which formed one of the principal ingredients of the Schnapps, together with an unal-loyed character of the alcoholic element, give it, in the estimation of the faculty, a marked superi ority over every other diffusive stimulant as a diu-DRY GOODS ONLY.

retic, tonic and restorative. These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the Co, 2 do do; Hopkins, Dwight & Trowbridge, 13 Schnapps, as one of the guarantees of its genualso adopted; a patent was obtained for the artikeg; J R Green & Co, 5 boxes, 1 bbl; Vick, Me- article had ever been sold in this country under the name of Schnapps prior to the introduction of Wolfe's Schiedam Aromatic Schnapps, in 1851 and the label was deposited, as his trade mark, in bundle empty bags; M Bellamy, 8 bags rough the United States District Court for the Southern District of New York during that year. It might be supposed by persons unacquainted upon the reputation of honorable merchants by vending deleterious trash under their name, that the protections so carefully thrown around these Schnapps would have precluded the introductions and sale of counterfeits. They seem, however, only to have stimulated the rapacity of impostors. The trade mark of the proprietor has been stolen; the indorsement which his Schiedam Aromatic Schnapps alone received from the medical profession has been claimed by mendacious humbugs: his labels and bottles have been imitated, his ad vertisements paraphrased, his circulars copied and worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name

The public, the medical profession and the sick, for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested with the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned, in Schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequalled purity. By a process unknown in the preparation of any other liquor, t is freed from every acrimonious and corrosive

Complaints have been received from the leadng physicians and families in the Southern States of the sale of cheap imitations of the Schiedam Aromatic Schnapps in those markets; and travelers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, testify that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary, The agents of the undersigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In conclusion, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he designed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis, comparison, and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trade mark, has come off triumphant. He therefore feels it a duty he owes to his fellow-citizens generally, to the medical profession and the sick, to denounce and expose the charlatans who counterfeit these evidences of identity, and he calls upon the press and the public to aid him in his efforts to remedy so great an evil. The following letters and certificates from the

leading physicians and chemists of this city will prove to the reader that all goods sold by the undereigned are all they are represented to be. UDOLPHO WOLFE.

I feel bound to say that I regard your Schnapps as being in every respect pre-eminently pure, and deserving of medical patronage. At all events, it s the purest possible article of Holland Gin, heretofore unobtainable, and as such may be safely prescribed by physicians. DAVID L. MOTT, M. D.,

UDOLPHO WOLFE, Esq., Present: DEAR SIR: I have made a chemical examination of a sample of your Schiedam Schnapps, with the intent of determining if any foreign or injurious

substance had been added to the simple distilled The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are mployed in the adulteration of liquors. I would not hesitate to use myself or to recommend to others, for medicinal purposes, the Schiedam Schnapps as an excellent and unobjectionable

variety of gin. Very respectfully yours, (Signed.) CHAS. A. SEELY, Chemist. (Signed,)

NEW YORK, 53 CEDAR STREET, UDOLPHO WOLFE, Esq., Present: DEAR SIR: I have submitted to chemical analysis two bottles of "Schiedam Schnapps," which I took from a fresh package in your bonded warehouse, and find, as before, that the spirituous liquor is free from injurious ingredients or falsification; that it has the marks of being aged and December 12. not recently prepared by mechanical admixture

sacrificed by the use of adulterated articles. Delirium tremens, and other diseases of the brain and nerves, so rife in this country, are very rare We have tested the several articles imported and sold by you, including your Gin, which you sell under the name of Aromatic Schiedem Echnapps, which we consider justly entitled to the high reputation it has acquired in this country; and from your long experience as a foreign importer, your Bottled Wines and Liquors should meet with the same demand. We would recommend you to appoint some of
